

Scholarly Research Activity

What year have you chosen to research? _____

Go to Wikipedia.org (or a similar site) and look up your chosen year.

What are some highlights from the year that spark your interest?

Check out the movie, music, art, and other pages for your year. Are you familiar with any of the listed pieces? Do any of them sound interesting to you?

Go to the library website (<http://library.rcc.edu/norco/>). Using the Electronic Resources section, look up the items you found interesting on Wikipedia. Try looking at newspaper-specific resources like America's Newspapers or National Newspaper Core to find articles on your chosen subjects.

Now that you have more information on events and texts from your chosen year, what three to five do you think you'll write about? Do you see a pattern between your chosen artifacts already?
